

DYNAMIC CHECKWEIGHERS DWT/HL/H

CE M 07 1383

Automatic checkweighers series DWT/HL/H are dedicated mainly for systems of Control of Packaged Goods. They are designed for load with maximal capacity 7,5 kg. they are applied by food, cosmetics and chemical industry.

Stainless steel constuction, control set is based on TMC weighing terminal equippedwith alphanumeric keyboard, separate display for mass and 4 line text display for communication between the weighing instrument and operator. Scale is equipped with numerous additional functions, which allows for cooperation with other devices and data base systems.

Scale have EC type approval, and are offered as EC verified

Technical data:

	DWT/HL 600 H	DWT/HL 1500 H	DWT/HL 3000 H	DWT/HL 6000 H	DWT/HL 7500 H
Max capacity	600 g	1500 g	3000 g	6000 g	7500 g
Readability	0,2 g	0,5 g	1 g	2 g	5 g
Tare range	-600 g	-1500 g	-3000 g	-6000 g	-7500 g
Working temperature	-10° - +40 °C				
Power supply	230V AC, 50Hz				
IP rating	IP 55				
Display	LED and LCD
